

HYDROCAL

WHITE GYPSUM CEMENT

Description:

HYDROCAL® White Gypsum Cement. This is a good choice for mask latex molds. It is harder than #1 Pottery Plaster and will hold detail longer with repeated castings. A good selection for decreasing production time on masks. Also works well for quick mother molds. (Please note: This product is not for lifecasting of body parts.)

WARNING This product is for making molds of clay and industrial patterns only. When mixed with water, Hydro Cal hardens and then becomes very hot. **DO NOT attempt to make a mold enclosing any part of the body using this material. Failure to follow these instructions can cause severe chemical burns that may require surgical removal of affected tissue. Read MSDS precautions thoroughly before using.** Dust from this product may cause eye, skin, nose, throat, or respiratory irritation. Use eye, skin, and respiratory protection in accordance with good industrial hygiene practices. Read MSDS of product thoroughly before using for specific details. Product safety information: 800-507-8899.

THIS PRODUCT IS FOR PROFESSIONAL USE ONLY. KEEP OUT OF REACH OF CHILDREN.

MIX RATIO: The manufacture recommended mix-ratio of Ultra Cal 30 is: 38 parts water to 100 parts Ultra Cal 30 by weight. The average setup time is 25-35 minutes when manually mixed. Please note that parts can be in grams, ounces or pounds etc. Do not mix with your hands, A paint paddle or jiffy mixer is recommended.
