

MONSTER MAKERS FOAM LATEX STANDARD GELLING AGENT

Description: Monster Makers' Standard Gelling Agent included with each Monster Makers Foam Latex Kit.

PRODUCT FEATURES

The gelling agent works as a delayed action coagulant causing the liquid foam to turn into a semi-solid mass. Depending on a number of factors including how much ammonia is present in the foam at the time of addition, the gelling will begin a chemical transition that allows the foam to change states in a delayed manner.

The safety data sheet (SDS) for this or any Monster Makers product should be read before using and is available on request. All Monster Makers products are safe to use if directions are read and followed carefully. **Keep Out of Reach of Children.**
